27 CFR Ch. I (4–1–04 Edition)

§ 22.132 Deposit in storage tanks.

(a) Recovered alcohol shall be accumulated and kept in separate storage tanks conforming to § 22.93. Recovered alcohol shall be measured before being redistilled or reused.

(b) Recovered alcohol may be removed from storage tanks for packaging and shipment to a distilled spirits plant for redistillation.

(2) The quantity of recovered alcohol in gallons,

(3) The words “Recovered tax-free alcohol”, and

(4) A package identification number or serial number in accordance with paragraph (c)(1) or (c)(2) of this section.

(c)(1) A package identification number shall apply to all of the packages filled at the same time. All of the packages in one lot shall be the same type, have the same rated capacity, and be uniformly filled with the same quantity. A package identification number shall be derived from the date on which the package is filled, and shall consist of the following elements, in the order shown—

(i) The last two digits of the calendar year;

(ii) An alphabetical designation from “A” through “L”, representing January through December, in that order;

(iii) The digits corresponding to the day of the month; and

(iv) A letter suffix when more than one identical lot is filled into packages during the same day. For successive lots after the first lot, a letter suffix shall be added in alphabetical order, with “A” representing the second lot of the day, “B” representing the third lot of the day, etc. (e.g., the first three lots filled into packages on November 19, 1983, would be identified as “83K19,” “83K19A,” and “83K19B.”)

(2) A consecutive serial number shall be marked on each package, beginning with the number “1” and continuing in

regular sequence. When any numbering series reaches “1,000,000,” the user may recommence the series by providing an alphabetical prefix or suffix for each number in the new series.

§ 22.134 Records of shipment.

A consignor shipping recovered alcohol or tax-free alcohol to a distilled spirits plant shall prepare and forward a record of shipment to the consignee. The record of shipment may consist of a shipping invoice, bill, or bill of lading, or another document intended for the same purpose. The record of shipment shall accurately identify and account for the tax-free or recovered alcohol being shipped. A permittee shall file one copy of the record of shipment with the records required by § 22.161.
